**Indoors When Cold Winds Howl—Outdoors in Summer Sunshine—Lionel Electric Trains**

NO matter what the season, for real sport nothing compares with a complete Lionel Electric Railroad. You can run your own speedy trains, passenger or freight, on the straightway, around curves, on the side-tracks, over bridges, through tunnels.

Backward or forward, fast or slow, starting, stopping, a switch at your finger tips controls Lionel Trains. Headlights and car lights gleam bright in the dusk or the dark. Limited roar over switches, crossing bells ring out their warning, semaphores signal. Lionel roads are perfect reproductions of the great railway systems.

You can have a Lionel outfit, too. Remember, Christmas is coming! Get Mother or Dad to go with you to watch Lionel Trains run. They will see how to make your Christmas the biggest ever.

Lionel Trains have been standard of the world for twenty-one years. They are made entirely of steel and are fully guaranteed. All cars are enameled by hand and baked like automobile bodies.

Lionel transformers, with plug to be attached to an electric light socket, are approved by the National Board of Fire Underwriters. Perfect safety at practically no current cost is insured. Trains also run on batteries.

Lionel Electric Railroads are made in America and are sold by the best department stores, toy stores and electric shops. Be sure to specify Lionel to your dealer. Dealers in your vicinity who carry Lionel Trains are listed below.
